Baby Essentiel – Armchair

Sergio Bicego, 2020

The Baby Essentiel armchair offers a contained seating solution that follows the same design as the sofa and exhibits a form without excess and with comfortable ergonomics. An armchair that recalls a certain Italian historical elegance, merging sophisticated elements with a simple outline. The attention to details that distinguishes Saba can be found in the quilted cushions and in the thin painted legs that support the armchair. Also available with a grosgrain cord trim. Fully removable covers.
